

Pale: L40S SPU, no co-sched L40S SPU, co-scheduled B200 SPU, no co-sched B200 SPU, co-scheduled
 Pale: L40S NIC, no co-sched L40S NIC, co-scheduled B200 NIC, no co-sched B200 NIC, co-scheduled

Pale: SPU and NIC serialised. Solid: co-scheduled, wall = max(SPU, NIC). Both gang the communication — same messages, same bytes. The two lanes run concurrently, so a pair need not sum to 100%.
